January 2021 Newsletter

Volume 1, Issue 3

January 1, 2021

All Communities are welcomed regardless of race, age or gender.

Adios 2020! Hola 2021! We look forward to 2021! Our team is dedicated to be of service to the Republican community. Excited to announce our first RCRHC Speaker of the year will be Tina Aviles!

Tina is an active grassroots Republican on a mission. "...like so many others throughout the Bible and history, God has laid on my heart to positively impact the political process. Really, I'm a mom on a mission ... I AM the elephant in the room."

We have our eyes on the Georgia Senate race. Many are asking how can I

help Senator Loeffler and Senator Perdue in Georgia to a victory? The balance of government is dependent on a win in Georgia. Looking for prayer warriors to pray on their knees and donations directed to Loeffler and Perdue campaigns at:

We address the discontentment with the 2020 Election itself. We validate and share everyone's displeasure. We are encouraged to see proactive action that was taken by Rockwall citizens to display concern over the election. "Let The

Church Roar" - Jericho Walk held in Washington D.C. is featured on Page 2.

In accordance with our Mission Statement, we are accelerating empowerment opportunities that will secure Republican values. Excited to be planning a Sanctity of Life speaker as we partner with various ministries and our local community.

We are initiating our Fund Raising efforts for a Scholarship Fund and a ProLife Plan.

Thank you for your support.

RCRHC—Victor Carrillo

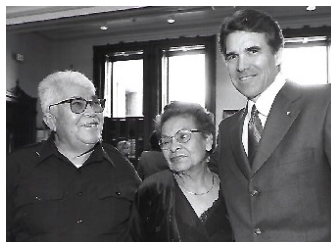

God blessed me as the only child of Alicia and Bernardo Carrillo. I was born in "el barrio" in Abilene, Texas. Neither of my parents completed elementary school although dad eventually earned his GED in his 40s. Dad worked changing oil and fixing flats, eventually retiring from Goodyear. Mom was a domestic servant for a well-to-do family. Dad grew up in abject poverty in Guanajuato, Mexico with an alcoholic father and a mom who died when he was 9 years old. Dad quit school at age 10

because, even though he loved school and excelled in it, he was ridiculed for being the poor son of an alcoholic.

I am proud of my Mexican heritage. Mom was born in Abilene, but all my grandparents hailed from the Guanajuato area of Mexico. My parents had big dreams for me. Dad would always encourage me to place my faith in God and seek a quality education—an education like he was unable to obtain. "Mijo, solo quiero que tu vida sea mejor que la mia!" "Son, I just want

life to be better for you than it was for me!" Isn't that EVERY parent's dream for their children?

As a result, I loved reading and learning and carried that dedication throughout high school, college, graduate school (Continued Page 3)

My wife Frances and I, friends of the RCRHC, were born and raised in South Texas where Hispanics are commonly the majority ethnic population. For us, Mexican food is not a treat; it is simply dinner.

By the year 2022, Hispanics will be the majority ethnic body in the State of Texas. Of the Hispanic voters, most have been voting Democrat. With these facts in mind, I saw the need to establish a Rockwall County Republican Hispanic Club.

The club was commissioned in July 2013 by District Judge Brett Hall and the blessing of Congressman Ralph Hall.

Seven years later the political climate of 2020 moved Hispanics to preserve the economic gains—under the leadership of businessman Donald J. Trump—of Hispanic workers, professionals, business owners, and community leaders. Across the Lone Star State, Hispanics are voting Republican in record numbers. A ma-

jority of Hispanic counties flipped from blue to red in 2020.

Why are Hispanics voting Republican? They discovered they share common values with Texas Republicans: faith, family and freedom.

I believe the RCRHC is rapidly becoming something bigger than the county GOP, attracting Hispanic leaders from surrounding counties, Hispanics with roots in Cuba, Venezuela, Argentina, and Mexico.

“Let The Church Roar” Jericho March—*Tina Millican*

“The only thing necessary for the triumph of evil is for good men to do nothing.” Edmund Burke

My husband and I attended the Jericho March in Washington D.C. last Saturday. This march was led by many faith and political leaders who believe that this is a spiritual and political battle we are facing.

Why did we go? Because we believe: This election was stolen. The Deep State, Mainstream Media, and Big Tech are all a part of it. China and George Soros are behind it. AND it is up to WE The People to fix it.

The rally had lots of people, prayers, shouting, music and anger. This was a perfect fit for me because since election day I have been praying off and on all day. AND when I am not praying, I am usually expressing my anger at this stolen election.

It was encouraging for me to see tens of thousands of other patriots who feel the same way I do. There were people of all colors and ages present. There were three groups of Chinese Americans handing out flyers to warn us of China’s intent to take over America.

General Michael Flynn was the main speaker. He opened his speech with the Lord’s prayer. He gave a positive speech and said “*there are more paths we are taking*” to stop the steal of this election, so be patient. I pray he is right. He also encouraged prayers for truth and justice to prevail.

There were many priests, pastors and Christian activists who spoke also. They spoke with strength and courage regarding our freedom of religion and how it is being trampled by our government. Through the COVID lockdowns and this conten-

tious election year, I have been disheartened at our church leaders in America. The vast majority have remained silent. I fear their roles are becoming more and more irrelevant.

The most exciting part of the rally was as Flynn was speaking, Trump tweeted about the rally and flew low over the rally in the Presidential helicopter on his way to the Army/Navy game. After attending this rally and seeing the media silence about the rally, I am convinced now more than ever that we need new media that will report the news honestly. Some new media that is currently forming is: parlor.com (like Twitter) and rumble.com (like YouTube). On cable there is Newsmax and One America Network. You can watch General Flynn’s speech at www.jerichomarch.org.

Be strong. Be courageous. Keep praying.

Ephesians 1:5 “*He predestined us for adoption through Jesus Christ...*”

The modern-day, “*It’s a Wonderful Life*” story by Philip Van Doren Stern is no longer fictitious, but a reality. Unplanned or inconvenient pregnancies after 1973 result in abortion. That child would not be given the opportunity to step out into the world and live. If the decision was made to terminate the pregnancy, then, like George Bailey, it would be as if that individual did not exist and this affects others’ lives in significant ways.

Why 1973? In 1973 is when the U.S. Supreme Court legalized abortions in the United States in the Roe Vs. Wade landmark decision. However, before 1973, it

was illegal and children like Betsy and countless others were born. The only option legally was adoption. If you are adopted that means your parents choose you. The Republican platform is against the genocide of innocent babies.

Luke 1:40-42 “...*When Elizabeth heard Mary’s greeting, the baby leaped in her womb, and Elizabeth was filled with the Holy Spirit. She exclaimed, “Blessed are you among women, and blessed is the fruit of your womb.”*

According to Pope Francis, “*It is not progressive’ to try to resolve problems by eliminating a human life.*” The abortion rights advocates for elimination of poverty by eliminating people, is an attitude reflective of eugenicist, Margaret Sanger.

“*In 2014, 75% of women who received an abortion came from low-income families. 28% were Black and 25% Hispanic.*” (According to Guttmacher Institute) Republicans offer Latinos and other minorities a more compassionate solution. A generation of children has already been lost. Hence, our RCRHC organization is proactive in working on Pro-life support.

Hey Y’All —Community Efforts—Katie & Joel Medina

This year has been interesting to say the least. In March, we all began to feel helpless and uncertain of what was going on. Not realizing the world was evolving before our very eyes and seeking information without any being available to us. Our trust has been broken in the media and many sources which we have always been able to rely on were being censored. We found ourselves seeking the truth on our own.

In July, my husband and I decided it was time to do something. We decided to put together a boat parade for Trump on July 25th. Knowing the possible repercussions and backlash we’d receive, we didn’t care! It was time to have our freedoms and to express those freedoms however we deemed fit! We were no longer going to sit by and allow protest after protest while patriots all sat quietly waiting for something to

change. The day arrived and the community showed up! We had over 4,500 people from shore to shore! It was amazing and confirmed the mission we were on was desperately needed.

Shortly after the first boat parade, we were contacted to do a few more. By the end of the summer we had 5 boat parades. It was amazing and such a wonderful way for Americans to get together to celebrate our freedoms and express our support for President Trump. Special guests included Senator Bob Hall, Keenan Williams, Strategic Initiatives for Trump Campaign; Sid Miller, Texas Agricultural Commissioner; Shelley Luther and more! God put us on a new mission to bring people together, unite Americans of all colors and invite people to hear the conservative/Republican message. We wanted

to bridge the gaps and destroy the media’s agenda on people.

We organized numerous events in September and October; flag waves, caravans, protest Kamala. Joel was invited to be a political activist and speaker to share his story and passion for his country. We became members of the RCRHC and participated in the Christmas parade. We are active in the North Texas Minority Coalition organizing events. Recently, Katie is working on a website www.BetterUSTogether.com. Goals are to welcome everyone and listen to a conservative message. We want to stand together and share ideas and common ground. Together we can unite on common ground and stand up for our Founding Fathers and the Constitution of the United States.

and law school. I’m a life-long learner and attribute that to Dad’s desire and dreams for me. Even now, at age 55, I recently earned a graduate certificate in Public Management from The Bush School of Government & Public Service at Texas A&M University, learning about corporate culture, ethics, leadership, and management. It’s never too late to chase a dream and attain a goal!

I was blessed with a diverse and rich career. I’ve served variously as a geologist, geophysicist; attorney experienced in

municipal, county, and state government; university professor; elected official (city councilman, county judge, statewide regulatory official over oil/gas/pipelines); oil and gas executive exploring Israel; and corporate board member.

Too young to “retire” but still wanting to “make a difference” in society, I now work for International Leadership of Texas—a public charter school serving approximately 21,000 students. Our motto is “*Others Before Self*” and we are training up a new generation of students from all backgrounds to serve their com-

munities and the nation in key servant leadership roles. For me, the key to a rewarding and successful career was centered on two things: faith and a quality education. I hope you’ll join us in raising funds to provide scholarships to promising young Latinos to pursue their education and live out their dreams!
